**RITENOUR CANNOT
FUMIGATE HOME****And Health Officer Hyatt
Refuses Aid to South
Connellsville Man.****LOCAL MAN WANTS HIS FEE****Unless He Gets \$3 He Will Do No
Fumigating For Frank Pierce and
State Health Department Is to Have
a Say in the Matter, Perhaps.**

Because Samuel Ritenour, Health Officer of the borough of South Connellsville, does not have a disinfecting outfit, the new borough, it is said, is liable to become entangled in a controversy with the State Health Department at Harrisburg.

Yesterday Frank Pierce, father of Channing Pierce, who died a few days ago from tuberculosis, came to see Health Officer Allen Hyatt of Connellsville borough, relative to having the house disinfected. Hyatt referred him to Health Officer Ritenour of South Connellsville.

Pierce said that he had been to see the South Connellsville officer who said that since the borough had not provided him with the necessary equipment, Pierce would have to get Hyatt to do the job. Hyatt refused to do so in his official capacity of Health Officer for that district.

Hyatt says that South Connellsville is responsible for its own equipment and should have provided its Health Officer with the proper articles. When asked if he would lend his equipment to Ritenour, he replied that he would not. The only way Hyatt will do the job, he says, is as a private citizen, and that he will have to be paid for his work. Three dollars is the price.

Hyatt will report the matter to the State Health Department at Harrisburg and let them take the matter up. The South Connellsville Board of Health has never organized since it was elected. Dr. W. J. Churchill, the only physician in the borough, it is said, refused to take the position as President and let them take the matter up.

The stone originally intended to be used was Indiana limestone but owing to delay in shipment this contract was cancelled and granite stone ordered from the North Carolina quarries. Superintendent Scribner, who is scheduled to take the place of Mr. Cissell, is on the job, but not yet started. He will remain on the job until his arrival.

Mr. Daisley will build a brick veneer eight room house on Snyder street at an early date. He bought the lot some time ago from Wade H. **RAILROAD TRAINMEN HAD
CHARGE OF RYLAND FUNERAL****Last Rites Over Veteran Railroad Man
Were Largely Attended
Yesterday.**

Largely attended was the funeral of the late George W. Ryland, which took place yesterday afternoon at 2 o'clock from his late residence at Snyder street. Many railroad men were in attendance. Rev. R. C. Wolf of the Methodist Episcopal church, and Rev. J. P. Allison of the Christian church conducted impressive services. The pallbearers were Alvin Blasey, O. Morgan, L. H. Daidwin, W. G. Koffler, S. H. Stewart and J. H. Hirschman. Appropriate music was rendered by the choir of the Christian church.

Deceased was a conductor on the Pittsburgh division of the Baltimore & Ohio railroad from 1884 to 1894, when he was transferred to Connellsville and since that time worked in the B. & O. yards. He was very popular among the railroad men and his sudden death came as a great shock to his many friends and relatives. He was one of the old time railroad men. He came here when air brakes and automatic couplers were in their infancy. He was known among the railroad men as "Happy George." The Brotherhood of Railroad Trainmen had charge of the funeral. Deceased was a charter member of Youghiogheny Lodge No. 215 B. of E. T. There were 37 members present at the funeral.

**STRIKE COMMITTEE WILL
CONSIDER WAGE OFFER****Whether to Accept Increase Will be
Decided This Afternoon.
Children Leave.**

LAWRENCE, Mass., March 1.—Official announcement that the American Woolen Company has granted a five per cent increase in all of its 32 mills was made today by Strike Leader Haywood at a strike committee meeting today. The meeting recessed until this afternoon when it was announced that the committee would consider the proposition posted at the mills of the American Woolen Company.

With the same policeman that a week ago forcibly protected them from leaving town assisting them, fifteen children of the strike were carefully placed on the 7.11 train here for Providence, by way of Boston. It was an impressive sight as Police Sergeant Monahan who held the charge last Saturday, lined his roundsmen in front of the ticket window and with no sign of weapon, night sticks, or blackjacks, asked to "please give way there and let the kids get their tickets."

At 7 o'clock the station was crowded. There was no trouble other than the crowding.

**HARRY BOWERS HAD NARROW
ESCAPE FROM LOSING SIGHT****Piece of Cast-iron Struck Him on the
Forehead, and Missing
in Eye.**

Harry Bowers, a machinist employed at Boyts, Porter & Company, was struck by a piece of cast-iron yesterday morning while at work. The missile hit him in the forehead squarely in the center of the head. It cut a gash an inch long and a half inch deep. He visited a physician and had the wound dressed.

It is considered fortunate that the casting hit him just where it did. The blow in either eye it would have resulted in the loss of eyesight and had it hit him on either temple the results might have been serious. Bowers lives at No. 111 Fourth street, West Side.

**FOREIGNERS IN
DANGER AT PEKIN****Fires are Raging in Chinese
Capital and Looters
Ply Trade.****THE SOLDIERS DISCONTENTED****Any Moment They May Join the
Looters and Government Is Unable
to Cope With Situation—Legation
Guards Are Standing Firm at Posts.**

United Press Telegram.

PEKIN, China, March 1.—With a dozen great fires raging in the northern section of the city, and thousands of discontented soldiers threatening to join the looters, grave fears for the safety of foreign residents was expressed by the Legation forces today.

The 2,000 members of Yuan Shi Kai's body guard who mutinied late yesterday because their pay had been reduced since peace was restored, marched out of the city early today after killing and wounding several hundred persons and looting scores of shops and private residences.

The inability of the government to suppress the disorder encouraged other soldiers and an outbreak of more alarming proportions is believed imminent.

Dynamic was used today in an effort to check the progress of the flames but with little success. At a late hour this afternoon it was feared the entire northern section of the city would be destroyed. No effort had been made at a late hour to estimate the loss, but it is expected to amount to several millions of dollars.

That there has been no loss of life among the foreigners was due to the activity of the Legation guards. American and German soldiers were in possession late today of the Chinese Legation, a building which overlooks the Legation and it was believed they would be able to prevent an attack on the diplomats, although a number of shots and shells whistled over the Legation yesterday afternoon and exploded near the residence of the American Consul, no one was injured.

William D. Straight, formerly Consul General to Mukden and at present representative of a New York financial syndicate and his wife were forced to flee to the American Legation for shelter. They saved a number of valuable papers but their residence was looted.

Yuan Shi Kai was reported to have been seriously injured, but this was denied by his bodyguard. When the outbreak first started, officials rushed into his residence, crying for him to flee and save himself. Yuan replied with a shrug of his shoulders "I will stay here." There was a fusillade of several hours duration which ended when the loyal troops engaged with the mutineers, but none of the bullets were directed at Yuan's residence.

**HOPE OF SETTLEMENT IS
DEFERRED UNTIL TUESDAY****English Government Unable to Bring
About an Adjustment at
Today's Conference.**

LONDON, Eng., March 1.—The hope of an immediate settlement of the coal strike ended today, when the conference between the committee of operators, miners had representatives of the Cabinet was adjourned until next Tuesday. It was stated that both sides to the controversy continued firm in their original position.

The immobility of a complete tie-up of the nation's industries was impressed upon the public today when practically all of the largest factories served notice on their men that they might be forced to close down at any time because of a shortage of fuel resulting from the coal strike. Several of the biggest railroads in the United Kingdom expect to be forced to suspend. If this should happen it would bring the number of idle men in Great Britain up to 5,000,000.

The Temperature Record.
The temperature for the past 24 hours, up to noon today, is given below, with corresponding temperatures for the same period in 1911. Readings for 1911 were taken at 8 A. M. and 5 P. M.

Maximum	42	35
Minimum	18	31
Mean	30	39

The weather this day a year ago was fair.

With the acquisition of a new thermometer, it will be possible to give real temperature figures in the future. Weather Statistician C. A. Purbough will be able to furnish the highest and lowest marks for the 24 hours preceding each noon, with the average temperature covering that period. The new thermometer is standard and one of the most accurate that could be secured.

The mercury reached 42 degrees yesterday afternoon. During the early morning hours it dropped to 18, all things considered, a record for this time of the year. The average temperature for the 24 hours was 30 degrees.

The river dropped nearly a foot during the night. This morning the gauge showed 4.72 feet against 5.52 last evening.

Signers communications criticizing the manner in which the road is run are invited. They can be addressed to the Chief Clerk's office.

Prevention against accidents will be another watch word of the road. The action taken is similar to that of the Baltimore & Ohio in adopting the slogan, "Safety First." All suggestions for the prevention of accidents will be welcomed by the company.

Besides placing the cards in the cars they will be posted in prominent places in all of the towns touched by the West Penn.

SOMERSET, Mar. 1.—The week of criminal court is bearing an end before Judge W. H. Kuppel. The Grand Jury concluded its labors at noon and was discharged with the thanks of the court. The jury is still considering the case against Mark Smith, charged with the murder of W. S. Scott at Sand Patch on September 25.

**OLD MEADOW MILLS BREAK
ALL RECORDS LAST WEEK****Turning Out Greatest Volume of Material Since Erected 15 Years Ago.**

Special to The Courier.

SCOTTSVILLE, March 1.—The Old Meadow mills of the American Sheet & Tin Plate Company broke all its previous records for receipts of iron for the week ending Saturday, February 24, and setting a new record, the heaviest in 15 years or since the plant first began operating. With the week ending Saturday last, 50 cars of bar iron were needed to the plant and some very large shipments this week so far. An average of 100 to 120 cars are moved every day about this plant.

There are heavy shipments of tin and sheet iron the larger part of it going to Europe and California, the majority being treated at the company's galvanizing plant at Scottdale. There the sheets are carefully wrapped in tar paper and heavily crated for their long voyage. The shipping department of the Old Meadow plant is busier than it has ever been, working almost day and night shifts.

Between 50 and 60 cars of coal are stocked in the company's yards, the big belt plants consuming about 2 cars of fuel every 24 hours, the coal being shipped from the Eureka and the Oscola mines near Pittsburg.

The new stack at the locally, being 128 feet high and 52 inches in circumference. The stack will soon be connected with the new battery of boilers. Several minor improvements are being made about the plant.

ROCKWOOD, March 1.—The Somerset County Prohibitionists held their annual convention here yesterday and named J. C. Speicher, principal of the Berlin schools, and W. H. Habel, a Rockwood business man, candidates for the Assembly. The selection of a Congressional candidate for the Twenty-third district was left to the Prohibitionists of Fayette and Greene counties.

Delegates to the State and National conventions were suggested. The party officers were re-elected, James B. Landis being the County Chairman, Fred Graft the Secretary and Harvey B. Landis the Treasurer. All of them are from Berlin.

The general impression is that the steel bill will pass the Senate and that President Taft will veto it. However, if Senator La Follet remains upon the sick list and is not able to appear in the Senate chamber there is possibility of defeating the bill, for it is admitted that the margin either way is very narrow.

More labor leaders appeared before the committee yesterday and protested against the proposed steel tariff reduction. Leon C. Sutton and M. L. Pearson of New York and Frank R. Vreeland of Dayonone, N. J., were among those who testified.

**STEEL HEARINGS
CLOSE TUESDAY****Believed Underwood Bill
Will Pass the Senate
When Reported.****PRESIDENT TAFT WILL VETO IT****That is the General Impression About
Washington—Senator Penrose Says
Republicans Oppose the
Substitute for the Present Bill.**

WASHINGTON, D. C., March 1.—On next Tuesday Representatives of the Westinghouse Electric & Manufacturing Company and the General Electric Company will appear before the Senate Finance Committee to argue against the passage of the Underwood steel bill and with their testimony it is expected that the hearings will close.

It is the purpose of the committee to report the bill to the Senate with a negative recommendation and not undertake to frame a substitute bill. Senator Nelson is in favor of the committee reporting a substitute, but a majority of the Republican members do not agree with him and believe the consistent course for the Republicans is to report the Underwood bill with the disapproval of the committee. In this way the majority adheres to the policy of not favoring the revision of any schedule that has been investigated and reported upon by the Tariff Board.

"As soon as the hearings are closed," said Senator Penrose, chairman of the committee, yesterday, "the Republicans of the committee will hold a conference and decide upon the course to pursue. It seems that a majority of the Republicans are in favor of making a negative recommendation and this is likely to be done. The Republican policy laid down by President Taft is to revise only those schedules which the Tariff Board has investigated and it is probable we will adhere to that policy. Of course, with the wool we will have to frame a substitute, for the Tariff Board has given us a report on that subject. But if we were to undertake a substitute for the steel bill, it would require several months at least to frame a bill which would be consistent and would be protective."

The general impression is that the steel bill will pass the Senate and that President Taft will veto it. However, if Senator La Follet remains upon the sick list and is not able to appear in the Senate chamber there is possibility of defeating the bill, for it is admitted that the margin either way is very narrow.

More labor leaders appeared before the committee yesterday and protested against the proposed steel tariff reduction. Leon C. Sutton and M. L. Pearson of New York and Frank R. Vreeland of Dayonone, N. J., were among those who testified.

EVERYONE NEEDS IT

Griffin & Co. of Connellsville, and S. A. Lowe & Co. of Scottsdale are having a Wonderful Sale of Thompson's Barosma, the Mighty Kidney and Liver Specific.

And no wonder, when they offer to refund your money if it doesn't cure any disease of the kidneys, liver or bladder, backache, rheumatism, nervousness or any weakness of the kidneys. But Thompson's Barosma has made no money almost miraculous cures that Griffin & Co. and S. A. Lowe & Co. are pretty certain not to have any return.

Here are a few instances: Frank K. Sturgis, Stuartville, Crawford county, Pa., was cured of Bright's disease six years ago and only took six bottles. He has had no bad symptoms since.

"I had kidney trouble and enlargement of the liver and spleen. I took Thompson's Barosma. The first bottle reduced the measurement around my stomach from 45 to 36 inches, and several bottles completely cured me."

—M. S. Langworthy, Treasville, Pa. After suffering the terrible agony of rheumatism for ten years, being compelled to use crutches, J. N. Dunn, Troy Center, Pa., after all hope had left him, and he had no faith in any remedy, took six bottles of Thompson's Barosma, threw away his crutches and went to work for the first time in ten years.

These statements are absolutely true, and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts? How can they suffer when Griffin & Co. and S. A. Lowe & Co. guarantee to refund the money if a cure is not effected? Thompson's Barosma, 50 cents and \$1.00 a bottle. All druggists.

It takes the steady nerve, the elastic step, the energetic body to meet modern conditions, and the quick mind grasps the fact that body and nerves must be properly nourished.

Weak, hesitating, doubting natures are those who lack vitality. Their kingdom is the crust or outer edge—the thin of things.

FOREIGN BUSINESS

How It Can Be Transacted Quickly, Safely and Conveniently.

The average individual when he thinks of any European country regards it as something that is a long way off and hard to reach. As a matter of fact, fast steamship service and several cable lines have brought this country very close to Europe. Sending money or traveling to any point in Europe is now a very simple matter.

The Foreign and Steamship Department of The First National Bank, 129 W. Main street, has connections with all points in Europe; in fact it practically issues Money Orders on all parts of the world. It is direct agent for all steamship lines and for personally conducted tours of Europe. It issues Letters of Credit and Travelers Cheques and procures Passports. Transacting Foreign Business with The First National is just as easy, safe and convenient as going to the grocery store for a pound of tea.

Frank Dietrich, of Point Marion, was a business visitor from Thursday. Homer Hahn of East Pittsburgh, is visiting his parents, Mr. and Mrs. J. C. Hahn.

Nick Gans, of Gans, was a business visitor here Thursday.

Miss Dora Breckton is recovering from a siege of typhoid fever.

The recent rain and thaw has made some bad places in the brick sidewalks in the borough, notably on Liberty street, where the walk had been laid on a soft bed. The water cut under it, letting the brick down, making a bad and dangerous hole that a pedestrian passing in the night time and not aware of the break is liable to be hurt and thereby throwing the borough liable for a bill of damage.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, indigestion, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English, or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 51 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

FRIDAY EVENING, MARCH 1, 1912.

Effects of the British Coal Strike.

The threatened British coal strike is occupying the earnest attention of the British Government, which has a realising sense of the calamitous effects of such a strike if long continued. They know it means the suspension of a large proportion of English manufacturing and transportation companies; the paralysis of industrial life; business ruin.
The British coal strike may result in better times in America, just as a strike of the bituminous mines of America may mean brisker business in the coke region, but every intelligent and fair-minded citizen hopes it will not be so. The temporary advantage gained is at too great a cost to humanity.

If the operators and the employes would make an honest effort to be fair, there would need be no further strikes. The English operators have agreed to a minimum wage, which we take it means that they have agreed to the principle of a sliding scale that is fair and equitable and should have the support of the miners.

The output of the English coal mines is only about two-thirds that of the United States mines, and is recovered at a much greater cost and effort. The coal deposits of the United States are the greatest and the finest in the world. They are so great, in fact, that many investors regard them with indifference. Yet recent estimates have resulted in the startling statement that at the present rate of consumption our coal supply is limited. Investment therein, especially in the best fields which will be the first worked out, cannot therefore but prove promptly profitable.

If the English coal strike continues in spite of all efforts on the part of the British Government to expedite it, there will undoubtedly be a brisk market for American coal, and the West Virginia mines will profit thereby.

Likewise will the bituminous districts of Pennsylvania, Ohio, Indiana and Illinois possibly profit, provided they are not idle from the same cause that has shut down the English mines.

Facts and Opinions.

The Stanley Committee, charged with the important duty of making Democratic capital out of the United States Steel Corporation, formed under Republican rule but now under Republican indictment, has spared no effort or expense to make good its mission.

Utterly failing to make out a case through the testimony of the officers of the Steel Corporation and other iron and steel men, the Stanley Committee employed some "experts" to investigate and report among others one Mr. Rao, reputed to be a public accountant, whose report has been made public. An expert accountant usually collates the figures and summarizes the facts, leaving others to draw their own conclusions. But this is evidently not what Expert McKee was employed to do. He offers few figures and many conclusions. Acting as witness, judge and jury, he finds the Steel Corporation guilty of everything which is democratically desirable.

He finds that the Steel Corporation operates in restraint of trade; that it manipulates prices and makes extortionate profits; that it is guilty of the property of the Tennessee Coal & Iron was the crime of 1907, and finally, that the Gary dinners were rank conspiracies rather than feasts of reason.

This sort of testimony is sufficient before a biased committee for the purposes of politics, but it would not go very far in a court of justice. Expert McKee would be asked for facts, not opinions.

The State Must Help.

The State Health Commissioner has granted an extension to divers boroughs on the Allegheny river which had been notified to proceed forthwith to install sewage disposal plants upon the representation by the latter that their financial circumstances will not permit them to do the work at present. Herein lies the weakness of this very excellent law. It would not keep the living waters of Pennsylvania streams free from pollution. The Courier has discussed the question at length and repeatedly in connection with a similar notice served on Conneltsville.

The Constitution of Pennsylvania limits the lawful indebtedness of its cities and boroughs to seven per centum of the assessed valuation of their real estate. Conneltsville is so close to this limit that the cost of establishing and erecting a sewage disposal plant, even with the consent of the people at the polls, would exceed its Constitutional limit of indebtedness and would consequently be unlawful.
The authority of the State Health

Commissioner is good under the new-age disposal act to compel boroughs financially able to do the work, but when it runs counter to the Constitution it crumbles into nothingness before the Higher Law.
Pennsylvania is a rich State and has made some magnificent appropriations for public improvements, but it has neglected to note that it can never accomplish the excellent results aimed at in the sewage disposal law until it contributes a liberal portion of the cost from its coffers.

The News informs us that the Town Clock has been purchased and will be shipped here within a week. It suggests that The Courier urge the School Board "to apply the Town Clock fund to the alleviation of suffering among the poor." The News can urge that disposition of the original Town Clock fund if it sees proper, but we would respectfully suggest that the fund was subscribed for a specific purpose and that it cannot consistently be expended for any other purpose. Since The News has purchased a Town Clock, perhaps the School Board had better wait to see what sort of a clock it is and where it is to be placed, after which it may more intelligently determine whether to buy another Town Clock and locate it in another part of the city, or to buy several hundred alarm clocks and attach them to the arc light poles.

The Dare Devil Trough is putting on a look of lamblike innocence.

The News says The Courier is jealous of it. Forget it. What is there to be jealous about?

The Western Maryland connection with the Lake Erie will be ready in plenty of time for the completion of the line between Conneltsville and Cumberland.

Our soldier boys stand well up in the militia class.

If Washington had been Recalled during the Revolution, or Lincoln during the Rebellion, what sort of a nation would we have been now?

T. Roosevelt has a political manager, but up to date he has no delegates.

The criminal prosecutions of the members of the alleged Bath Tub Trust have failed. There are times when prosecutions are prosecutions, when law is not justice.

There are some signs of spring.

Most people not immediately interested in the Massachusetts mill strike will be glad to see it settled. They are tired reading about it. The citizens of Massachusetts will no doubt be glad of its settlement, too. It has cost them quite a penny.

There will be full weather in some quarters after the spring primary.

West Virginia politicians are usually on the job early and late. With them it's a serious business, just like it is up in Somerset county.

The Conneltsville coke market is a waiting game. The operators should play it to the limit. If they do they can't lose.

West Lonsaring has lost a boy. Where is the Truant Officer?

Conneltsville's dyeing establishment has changed its name, but not its occupation. It is the only establishment in the community that is willing to dye for its patrons.

The population is small but ambitious. Broad Ford is increasing in bunches.

Tax Collector Norton has issued some two hundred commitments, but this far he says he has only arrested the attention of the delinquents. If this arrested attention results in a resumption of liquidation, the object of the collector will have been attained.

Pneumonia weather.

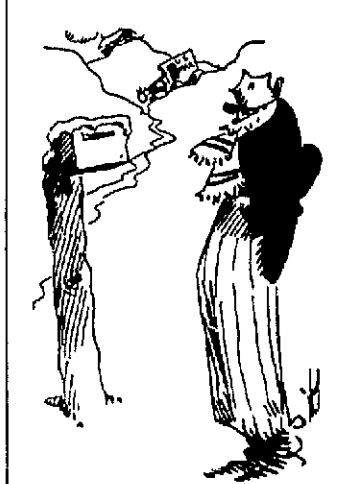

March came in like a lion. We will hope the old sign holds good this year.

Somerset county has plenty of criminal business since it developed large industrial communities.

Alabama Christian Endeavorers. ATHENS, Ala., March 1.—With a preparatory service this afternoon, the 22nd annual convention of the Alabama Christian Endeavor Union was opened under conditions that give promise of one of the best meetings in the history of the organization. Tonsilline is the result of years of careful study and practical work, and is made from drugs used for years in the cure of throat diseases. MOTHER WAS WORRIED

Because Young Daughter Coughed So Much—What She Did.

Just think how anxious Mrs. William Archer, of Long Branch, N. J., must have been about her 11-year-old daughter. She says, "She was very thin, had a bad cough, was nervous and did not sleep well. Vinol helped her wonderfully. She can sleep all night now without coughing once, in fact her cough is gone. Her appetite is greatly improved and she has gained weight. I wish every mother knew what Vinol will do for delicate children."

Nothing can possibly be more important than the health of children and that is why we earnestly advise the use of Vinol in all cases where a child is weak, pale, run down, has a cough, or poor appetite. We have seen it make so many children strong and rosy that we believe in it.

Children take Vinol eagerly because it tastes good and it puts new strength into their little bodies. We guarantee Vinol to give perfect satisfaction and give back your money if it does not. Graham & Company, Druggists, Connellsville. Vinol is sold in West Connellsville by Fred H. Harmoning, Druggist.

DROPSY TREATED FREE

Franklin Miles, M. D., LL. B., the Well Known Heart and Dropsy Specialist, Will Send a Two-Pound Treatment Free.

Many "Hopes" Cases Soon Cured After 5 to 15 Doctors Failed.

At first no disease is apparently more harmless than dropsy, a little swelling of the eyelids, hands, feet, ankles or abdomen. Many times there is great shortness of breath, smothering spells, sitting up to breathe, cough, fainting spells, sometimes nausea and vomiting, even bursting of the limbs and a lingering and wretched death if the dropsy is not removed.

Dr. Miles has been known as a leading specialist in these diseases for 25 years. His liberal offer is certainly worthy of serious consideration. You may not have another opportunity.

The Grand Dropsy Treatment consists of four dropsy remedies in one, also Tonic Tablets, and Pure-Laxa for removing the water. This treatment is specially prepared for each patient and is at least ten times as successful as that of most physicians. It usually relieves the first day and moves swelling in six days in most cases. Delay is dangerous.

Mr. Alexander Milne, Spokane, Wash., cured by two months' treatment. Mrs. Sarah A. Boyd, Oelwein, Ia., cured after giving up hope. Mrs. Edwin Sanders, Decatur, Neb., cured after 10 physicians failed. Mrs. A. J. Nash, Pickering, Mo., cured. Limbs swollen up to the body. Mr. C. A. Killinger, Shippensburg, Pa., cured after four physicians failed to relieve. Mrs. Julia Broadbent, Douglas, Minn., cured after being pronounced incurable by three physicians. Mr. John T. Alexander, Elwood, Ill., cured after 4 failed. Dr. Miles' book contains a large number of remarkable cures.

Mr. Alexander Milne, Spokane, All afflicted readers may have the new Dropsy Book, Examination Chart, Opinion free. Write once. Describe your case. Address Dr. Franklin Miles, Dept. G, 517 to 527 Main Street, Elkhart, Indiana.

INTEREST LAGGING SOME IN BIG ELECTRIC SHOW

No Attendance Records Being Smashed Although Exhibits Are Still Attractive.

No attendance records are being smashed at the Electric Show. The attendance continues fairly, but the standing room isn't crowded as it was the first few days of the exhibit.

The exhibitors are not worried in the falling off in the number of visitors because they have a better opportunity now to demonstrate their wares.

Generally speaking, the visitors can be divided into two classes, those who want to investigate electrical appliances and those who have a holiday.

For Paul McDonald's Victoria music, The Toward Electric Company booth is the most popular feature of the show largely because of the music.

Manuker McDonald has succeeded in disposing of one of his music making machines and has other prospects in view.

All of the exhibitors report good business in sight. At the Iron City Electric Company's exhibit C. M. Maxwell has been doing excellent business.

William Lambie, a vacuum cleaner, to come here for the purpose of looking up prospects. Mr. Williams handles only the Vacuum cleaners.

Along with the other concerns, Maxwell is getting some good lamp orders.

The demonstrations of the Volta-Mills and Westinghouse concerns attract interest. While A. J. Butlermore, J. R. Barle, W. E. Chappman and the Toward Electric Company are profiting through the exhibit, the Federal Sign System is getting several prospects in line.

Interest is taken in several of the Ripley glass products that are exhibited.

The West Penn forces are kept busy explaining the flat top lighting system and demonstrating the uses of electricity in the home.

The exhibit closes on Saturday. It will be given in Uniontown and Greensburg in the near future, having been such a success here that those interested to continue the demonstrations throughout the region for some time to come.

THE PRODIGAL JUDGE

By VAUGHAN KESTER

CHAPTER XVI.

The Judge Offers a Reward.
The news of Charles Norton's murder spread quickly over the country. For two or three days bands of armed men scoured the woods and roads, and then this activity quite unproductive of any tangible results ceased, matters were allowed to rest with the constituted authorities, namely Mr. Betts, the sheriff, and his deputies.

No private citizen had shown greater zeal than Judge Slocum Price. One morning he found under his door a folded paper:

"You talk too much. Shut up, or you'll go where Norton went."

A few moments later he burst in on Mr. Saul.

"Glance at that, my friend!" he cried, as he tossed the paper on the clerk's desk. "What do you make of it, sir?"

"Well, I'd keep still."

The judge laughed derisively as he bowed himself out.

He established himself in his office. He had scarcely done so when Mr. Betts knocked at the door.

The sheriff came direct from Mr. Saul and arrived out of breath, but the latter was not mentioned by the judge. He spoke of the crops, the chance of rain, and the intricacies of county politics.

The sheriff withdrew mystified, wondering why it was he had not felt at liberty to broach the subject which was uppermost in his mind.

His place was taken by Mr. Peggie and on the heels of the tavern-keeper came Mr. Bowen. Judge Price received them with condescension, but back of the condescension was an air of reserve that did not invite questions.

The judge discussed the extension of the national roads with Mr. Peggie, and the religion of the Persian fire-worshippers with Mr. Bowen; he permitted never a pause and they retired as the sheriff had done without a word of the letter.

The judge's office became a perfect Mecca for the idle and the curi-

ous, and while he overflowed with high-bred courtesy he had never seemed so unapproachable—never so remote from matters of local and contemporary interest.

"Why don't you show 'em the letter?" demanded Mr. Mahaffy, when they were alone. "Can't you see they are suffering for a sight of it?"

"All in good time, Solomon." He became thoughtful. "Solomon, I am thinking of offering a reward for any information that will lead to the discovery of my anonymous correspondent."

"He at length observed with a faintly casual air, as if the idea had just occurred to him, and had not been something in his brain all day."

"There you go, Price—" began Mahaffy.

"Solomon, this is no time for me to hang back. I shall offer a reward of five thousand dollars for this information."

The judge's tone was resolute. "You, sir, I shall make the figure commensurate with the poignancy of the fact. He was my friend and client."

The next morning it was discovered that some time during the night the judge had tucked his anonymous communication on the court house door; just below it was another sheet of paper covered with bold script:

"To Whom It May Concern:

"Judge Slocum Price assumes that the above was intended for him since he found it under his office door on the morning of the twenty-fifth inst."

"Judge Price begs leave to state it as his unqualified conviction that the writer is a coward and a cur, and offers a reward of five thousand dollars for any information that will lead to his identification."

Tom Ware was seated alone over his breakfast. He had left his bed as the pale morning light crept across the great fields that were alike his pride and his despair—what was the use of trying to sleep when sleep was an impossibility? He was about to quit the table when big Store entered the room to say there was a white fellow at the door.

"Fetch him along in here," said Ware. The white fellow delivered a penciled note from Murrell. When he was gone, the planter ordered his horse.

As Ware rode away from Belle Plain he cursed Murrell under his breath. His own inclination toward evil was never robust; he could have connived over a long period of years to despoil Betty of her property, but murder and abduction was quite another thing.

Three miles from Belle Plain he entered a bridge path that led toward the river. A growth of small timber was standing along the water's edge, but as he drew nearer, those betterments which the resident of that lonely spot had seen fit to make for his own convenience, came under his scrutiny; these consisted of a log cabin and several lesser sheds.

Landings, he advanced toward the cabin. As he did so he saw two women.

"I reckon she's the way you'd expect her to be," Ware dropped his voice to a whisper.

"John, you'll ruin yourself with your damned crazy infatuation!" it was Fentress who spoke.

"No, I won't, colonel, but I'm not going to discuss that. All I want is for Tom to go to Memphis and stay there for a couple of days. When he comes back Belle Plain and its niggers will be as good as his. I am going to take the girl away from there tonight. How soon can you get away from here, Tom?" he asked abruptly.

"By God, I can't go too soon!" cried the planter, staggering to his feet. He gave Fentress a hopeless beaten look.

"You're my witness that first and last I've no part in this!"

"This must be done without violence, John!" stipulated Fentress.

"Certainly, I understand. Which shall it be—up or down river?"

"Could you take care of him for me below, at Natchez?" inquired Fentress.

"As well there as anywhere."

"Good!" said Fentress, and took his leave.

Three-quarters of an hour slipped by, then, piercing the silence, Murrell heard a shrill whistle; it was twice repeated, he saw Hues go down to the landing again. A half-hour elapsed and a man issued from the scattering growth of bushes that screened the shore. The newcomer crossed the clearing and entered the cabin. He was a young fellow of twenty-four or five, whose bronzed face wore a reckless expression.

"Well, captain, what's doing?" he asked.

"If anything's to be done, now is the time, Hues. What have you to report?"

"Well, I've seen the council of each clan division. They are ripe to start this thing off."

Murrell gave him a moment of moody regard.

"Twice already I've named the day and hour, but now I'm going to put it through!" he set his teeth and thrust out his jaw.

"Captain, you're the greatest fellow in America! Inside of a week men who have never been within five hundred miles of you will be asking of each other who John Murrell is!"

Murrell had expected to part with Hues then and there and for all time, but Hues possessed qualities which might still be of use.

"Hues, you must start back across Tennessee. Make it Sunday at midnight—that's three days off." Unconsciously his voice sank to a whisper.

"Sunday at midnight," repeated Hues slowly.

"When you have passed the word into middle Tennessee, turn south and make the best of your way to New Orleans. Don't stop for anything—push through as fast as you can. You'll find me there. I've a notion you and I will quit the country together."

"Quit the country! Why, captain, who's talking of quitting the country?"

"You speak as though you were fool enough to think the niggers

"Morning, Mrs. Hicks," he said, addressing himself to the mother, a hulking ruffian of a woman. "Anybody with the captain?"

"Colonel Fentress is."

"Humph!" muttered Ware. He moved to the door of the cabin and entered the room where Murrell and Fentress were seated facing each other across the breakfast table.

"Well, what the devil do you want of me, anyhow?" demanded the planter.

"How's your sister, Tom?" inquired Murrell.

The colonel shrugged his shoulders. Murrell reached out a hand and rested it on Ware's arm.

"Keep your wits, Tom, and within a week people will have forgotten all about Norton and your sister. I am going to give them something else to worry over."

Ware went from the cabin.

"Look here, boy, about the boy—are you ready for him if I can get my hands on him? I'll send him either up or down the river and place him in safe keeping where you can get him at any time you want."

"This must be done without violence, John!" stipulated Fentress.

"You speak as though you were fool enough to think the niggers

would accomplish something!" said Murrell coolly. "There will be confusion at first, but there are enough white men in the southwest to handle a heap better organized insurrection than we'll be able to set going. Our fellows will have to use their heads as well as their hands or they are likely to help the nigger swallow his medicine. I look for nothing else than considerable of a shake-up along the Mississippi."

"No, you're right, it won't!" and again Hues gave way to easy laughter.

"When you've done your work you strike south as I tell you and join me. I'm going to keep New Orleans for myself—it's my ambition to destroy the city Old Hickory saved!"

"And then it's change your name and strike out for Texas with what you've picked up!"

"No, it isn't! I'll have my choice of men—a river full of ships. Look here, there's South America, or some of those islands in the Gulf with a black-and-tan population and a few white mongrels holding on to civilization by their eye-teeth; what's to hinder our setting up shop for ourselves? Two or three hundred Americans could walk off with an island like Haiti, for instance—and it's black with niggers. What we'd done here would be just so much capital down there. We'd make it a stamping-ground for the Klan! In the next two years we could bring in a couple of thousand Americans and then we'd be ready to take over their government, whether they liked it or not, and run it at a profit. We'd put the

SPOKANE, Wash., March 1.—Seven women deputy assessors, believed to be the first of their sex to be employed in any part of the country, started upon their official duties in Spokane today. Chief Assessor Glenn K. ALL-RUN-DOWN AND GENERALLY MISERABLE

New Tonic, Tona Vita, in Use for Health Resorts for This Trouble.

If you are nervous and run-down with little vitality or ambition, and feel generally miserable and hazy, you are suffering from nervous debility. If so you should investigate the new tonic "Tona Vita" and find out what a great record it has made since first introduced scarcely a year ago.

Do you know that "Tona Vita" is now pronounced by hundreds of physicians as the most remarkable tonic known. Do you know that "Tona Vita" is used in high-class sanitariums and health resorts as a nerve food and tonic? Do you know that during the past year more than fifty thousand people have stated over their own signatures that "Tona Vita" has completely restored their health?

Mr. James L. Hickey, of 288 North Division Street, Buffalo, N. Y., the Well Known National League Umpire,

is one of these. This is what he says:

"The nature of my profession frequently necessitated irregularity in sleeping and eating and as a result I became a victim of nervous debility. I had bad headaches and indigestion. My nerves troubled me, also and I did not get sufficient rest from my sleep. I would become fatigued very easily and was almost prostrated by hot weather."

"I had tried other means to restore my normal condition when a friend suggested the tonic 'Tona Vita.' I took his advice and am glad of it. My appetite improved at once. My headaches became less frequent and have gradually disappeared and I am no longer nervous or depressed. My stomach is now in perfect condition. In fact, I am thoroughly rejuvenated."

We have an agent in every city who will refund the purchase price if "Tona Vita" fails to completely build you up.

A. A. Clarke has the agency for Tona Vita in Connelville. The Approved Formula Company, Dayton, Ohio.

COKERS LOSE TO JOHNSTOWN TEAM

"PLUGGER" DOHERTY IS STAR

His Long Shots Feature Otherwise Lifeless Contest—Beggs Outpaces Wohlfarth From the Field But Billy Kummer Fails to Connect.

Uniontown 28; Charleroi 17.

Johnstown 44 1. 732
Uniontown 42 10. 880

Charleroi 34 38. 100

SCHEDULE THIS WEEK.
Tonight—Johnstown at Connellsville; Uniontown at Charleroi.
Saturday—Charleroi at Johnstown.

The Cokers lost to Johnstown last evening 41-30 in a rather slow contest. Both teams cut out the rough stuff and play was open. Aside from "Pluggie" Doherty's shooting there were few features. Doherty caught four baskets from difficult angles and was the star of the contest.

With Captain Dark taking a rest, Beggs went in at forward and outscored Wohlfarth, two baskets to one. Billy Kummer was blacked out by Kinkade and could not connect with the net although he shot well from the foul line. Bill Keenan kept Cavanaugh moving lively about the cage and made five baskets. The steady Coker center drew a pair from the field. The Cokers never had a chance. Johnstown taking the lead from the start. The lineup: Johnstown (41) Connellsville (30) Fogarty forward Beggs Newman forward Kummer Keenan guard Cavanaugh Wohlfarth guard Doherty Kinkade guard Egolf Field goals—Fogarty, Newman 4, Keenan 5, Kinkade 3, Wohlfarth, Beggs 2, Cavanaugh 2, Doherty 4, Egolf. Foul goals—Fogarty 13 out of 17, Kummer 12 out of 17. Referee—Roach.

Basketball Notes.
Over in Charleroi they call Peller. Ken Ken. No wonder the Reading boys can't make any baskets with that appellation hanging to him.

Johnstown plays here tonight for the last time this season. Early in the year the Jaws seemed unbeatable. They took their first three games on the Coker floor but after that the Dukes discovered Joe Fogarty's pot uncorked and have kept it in captivity since Johnstown is the only team that has won the series from the Cokers.

The season is almost over. Just two more games on the home floor. Fans should turn out in numbers tonight and Tuesday. Just to make the management feel that its efforts have been worth while.

Charleroi was crippled last night, which enabled Uniontown to win. The Sentinels made but 25 points which isn't many. Bill Powell was in the game long enough to get a field goal.

And the Charliers been shooting fouls as they should. Uniontown might have been stopped.

Manager W. C. Wilson is dickering with Frank Piper, a veteran catcher, to do the receiving work for the Cokers. Wilson thinks Piper is the best value in coaching the pitchers. Wonder if he is anything like Pat Moran?

J. C. McHale's Homestead team, made up of Wohlfarth, Steele, Adams, J. Brown, A. Brown and Dolin should make any of them in the post-season series. Games are being arranged with the Cokers, Uniontown and Johnstown. Being 'em along.

Why should you continue to experiment with salves, greasy lotions, and fancy hair dressings to rid your scalp of germ life? They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it.

Why not try a PROVEN REMEDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this way will cure DANDRUFF AND ITCHING SCALP. This remedy is ZEMO, a clean, refined, penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it.

A shampoo with ZEMO (ANTISEPTIC) SOAP and one application of ZEMO will entirely rid the scalp of dandruff and scurf. Do not hesitate, but get a bottle of ZEMO today. It acts on a new principle and will do exactly what we claim for it.

Annual Sportsmen's Show.
NEW YORK, March 1.—"Biggest, Better and Bigger" is the slogan of the eighteenth annual Sportsmen's Show, which opened in Madison Square Garden today and will continue through the coming week. The exhibition this year has the familiar setting of outdoor life, with a liberal display of the trophies of the chase, but many features of the program are entirely new. The Boy Scouts are to have a conspicuous part in the show, while the trapshooting competitions, angling championships and aquatic sports will be conducted on a larger scale than heretofore.

AT THE THEATRE.

THE SOISSON.

"A MILLIONAIRE TRAMP." In the company which presents the comedy drama, "A Millionaire Tramp," at the Soisson Theatre tomorrow afternoon and night will be noted several who have made reputations in other plays. Among these may be mentioned Louis Wren, who assays the role of "The Millionaire Tramp." Louis Wren starred in "Dr. Jekyll and Mr. Hyde," and whose rendition of the same was compared favorably with Mansfield and Sheel. Miss Nell De Onson who plays the emotional lead is an actress of experience and charming versatility. The balance of the company is up to the high standard demanded by the management.

"THE MAN ON THE BOX." Grace Livingston Furness' play, "The Man on the Box," adapted from Harold McGrath's popular novel of the same name is a play that is certain to provoke much laughter, and its presentation at the Soisson on Wednesday, March 8, will surely be the signal for the assembling of all comedy lovers. Almost everybody has read McGrath's entertaining novel and can see in its lines and situations an opportunity for a highly amusing and entertaining play, and Miss Furness in dramatizing the book has made the most of her material. The play has been seen on tour with Henry E. Dixey in the title role. The play has for plot the confusion of identities that comedy writers revel in, and the ingenuity of the novelist and the playwright has resulted in a series of complicated situations that keep the audience on the alert of expectancy and mystery. The fact that the book has been so extremely read makes the there of the play generally well-known, and it is considered to be one of America's best and most successful comedies.

Plays and Players.
William Faversham is to produce "The Man" in London.

William H. Fawcett is appearing in Canada in "Dear Old Billy."

John C. Rice and Sally Cohen have a new comedy, "The Path of the Princess."

It is said that "Officer 666," which is now an established success in New York, was rejected by a number of managers before it was accepted by Cohen and Harris.

Edgar Selwyn and Margaret Mayo have both finished plays which will be ready for next season. The former

WOODROW WILSON MEN GET AFTER TEXAS VOTES

Importance Conference Will be Held at Waco and Friends Hope for Success

Special to The Courier
AUSTIN, Tex., Mar. 1.—Political interest in Texas is centered in a conference which is to be held at Waco tomorrow by friends of Woodrow Wilson, who expects at that time to lay the foundation for an aggressive fight to elect for delegates to the Democratic national convention who will be in favor of the nomination of the New Jersey Governor for President. The Wilson partisans in the Lone Star State appear confident of capturing the entire delegation, but feel they should wage an aggressive fight as a light as they regard the result in doubt. As the result of the Waco meeting it is expected that a vigorous campaign for a Wilson delegation to Baltimore will be maintained up to the time of the holding of the State convention or the State primary if the last named system of selecting the delegates is adopted by the State executive committee. There appears to be a popular demand for holding

ing of a presidential preference primary and in connection with the Waco conference meeting there will be a separate meeting of Democratic leaders from various parts of the State to consider the matter.

Discussing the political situation in Texas, with respect to the chances of Woodrow Wilson securing the support of the Texas delegation, Judge Calo Sells of Colburn, who is chairman of the executive committee of the Woodrow Wilson State Democratic League, says:

"We are not only optimistic, but our confidence in the situation is justified by reports, coming through a systematic organization in practically every county in the State, which indicate that at least three-fourths of the Democrats of Texas are in favor of the candidacy of Governor Wilson, and that Texas will send a solid Woodrow Wilson delegation to the Baltimore convention."
